

Heart Rate Control program. Incline and speed will be controlled to maintain the target heart rate of runner.

The heart rate can be measured by built-in heart rate board and displayed on console while runner holds the metal handles.

During running, runner can use the button to adjust both speed and incline and to maintain the same position and focus on the ergonomics.

USB Charging Modular  
Keep your smart devices charging while exercising.

The latest i-Wellness function is connected by Bluetooth Technology and compatible with both i-OS and Android devices.
